

Partners in Wellbeing

For some people, the psychological, social and economic effects of the coronavirus (COVID-19) pandemic, have had a significant impact on their mental health and wellbeing. Many people also feel distressed and overwhelmed by the constant media reports and conflicting information about the situation.

It's natural to feel a range of emotions, such as stress, worry, anxiety or feeling low. These feelings are common during and after distressing events like the COVID-19 pandemic and the restrictions put in place to stop its transmission. Experiencing these feelings does not always mean something is wrong.

However, if you are not coping or have been feeling distressed, anxious or down over several weeks, help is available through *Partners in Wellbeing* service.

The free service offers one-on-one support to help you improve your wellbeing, develop strategies to cope and provide emotional support when and as you need it.

We acknowledge the Traditional Custodians of the land we work on and pay our respects to Elders past, present and emerging.

Get on with life

We help you to identify people in your life, support services, and other resources to draw on during times of stress. If required, a Wellbeing Coach will assist you to link with other support services in your local community.

Keep Connected

We keep in regular contact with you to provide emotional support, practical assistance and help you use the strategies you have identified to manage your stress, anxiety and improve your wellbeing.

Learn more about COVID-19

As the restrictions and advice in response to COVID can change, your Wellbeing Coach can provide up-to-date and accurate information on COVID 19 and current restrictions within your community.
